What I Can Do for You

I'm not currently looking, thanks!

Work

Twilio | San Francisco, CA | Jan 2014 - Present

Current: **Developer Evangelist Manager - West Coast**. Promoted from: **Developer Evangelist**.

Inspiring and equipping software developers in the Bay Area and beyond.

Excella Consulting | Washington, D.C. | Sept 2010 - Nov 2013

Managing Consultant and **Python Practice Lead**. Promoted from: **Senior Consultant**.

Created and ran Excella's Python practice, about \$2 million/year in revenue (15 consultants). Brought in 5 new clients over 18 months including The Motley Fool, the Consumer Financial Protection Bureau, George Washington University, Nuclear Threat Initiative, and PIAA.

Programmed, performed code reviews and mentored newer developers on all Python projects.

Sapient | Arlington, VA | Dec 2009 - Sept 2010

Senior Associate Software Developer.

Led a team of Java developers to implement a forensic evidence tracking system for the FBI's Operational Technology Division based in Quantico, Virginia. Our team successfully delivered milestone builds for user acceptance testing and training releases.

Booz Allen Hamilton | Charlottesville, VA | Jul 2007 - Dec 2009

Senior Consultant.

Transformed millions of records from several upstream biometrics collection systems into structured entities that could be searched, viewed, and manipulated with metadata. Developed prototypes and redesigned the application user interface with Google Web Toolkit for the Department of Defense.

Freddie Mac | Tyson's Corner, VA | May-Aug 2004 (intern), Jun 2005 - Jul 2007 (full)

Programmer Analyst. Promoted from: **Programmer Analyst Associate**.

Designed and developed multiple internal enterprise accounting applications that directly reduced the number of days required to complete Freddie Mac's external financial reporting process. Also successfully delivered an internal \$600,000 workflow reporting application on the JVM stack.

Speaking

These are a subset of my recent tech talks. All slides at <http://www.mattmakai.com/pages/presentations.html>.

Choose Your Own Django Deployment Adventure | DjangoCon 2014

Portland, OR | Sept 2014 | video: <http://bit.ly/1BGHbSC>

Full Stack Python | EuroPython 2014

Berlin, Germany | Jul 2014 | video: <http://bit.ly/XhqqAJ>

Ansible Notification Modules | AnsibleFest NYC

New York, NY | May 2014 | event: <http://bit.ly/1l2ZCP8>

Staying Sane While Taking Over An Existing Django Codebase | Django Boston

Boston, MA | July 2013 | video: <http://youtu.be/psCVC9BdgsA>

Projects & Writing

Full Stack Python | <http://www.fullstackpython.com/>

Explains the Python web stack up from the server through the browser layers. Intended audience is developers unfamiliar with how to deploy their web application.

Coding Across America | <http://www.codingacrossamerica.com/>

Met with software developers and tech startups in 30 U.S. cities while road tripping 13,690 miles in 5 months. Wrote about software, spoke at tech events and worked remotely for my clients in Washington, D.C. while traveling.

Technical Blog | <http://www.mattmakai.com/>

Blog for technical and entrepreneurial topics. Replaces my former tech blog (<http://mmakai.com/>).

Education

University of Virginia M.S. Management of Information Technology 2010

Virginia Tech M.S. Computer Science and Applications 2008

James Madison University B.S. Computer Science 2005
